

BayBioMS – Advanced mass spectrometry seminar

When: Wednesday 16.10.2024, 5 pm

Where: IGZW, Gregor-Mendel-Str. 4

3rd floor conference room

Doors open at 4:45 pm

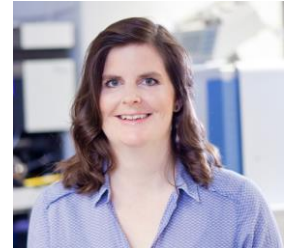

Free beer, drinks and snacks will be served!!

Methods covered

- False discovery rate estimation
- LC-MS/MS-based bacterial identification
 - Targeted metabolomics

Dr. Christina Ludwig
(Proteomics)

Dr. Karin Kleigrew
(Metabolomics)

Miriam Abele
(Bioinformatics)

Miriam Abele

BayBioMS
TUM

“MS2Bac – A strain-resolved bacterial identification algorithm”

Melanie Bleffgen

ZIEL – Institute for Food
and Health
TUM

*“Effect of dietary fiber on trimethylamine-
N-oxide production after beef consumption
and gut microbiota:
MEATMARK – a randomized pilot
intervention”*
